Q2 Should the public health guidelines indicate that schools will be permitted to reopen, the Ministry of Education has indicated that school attendance will be voluntary. This means that parents/guardians will have the choice to send their children to school according to the school reopening plans OR to keep their children home with access to remote education (virtual classrooms). Parents/Guardians: are you planning to send your child(ren) to school when the building reopens?

Q3 In the adaptive model, students will attend the school building on a modified schedule. Based on current public health guidelines, classrooms will have a maximum of 15 students at a time. This will mean that part of each class will be at school while the other part of the class will be learning at home in the virtual classroom; so each child would receive some instruction at school and some instruction online. There are many versions of this adaptive model. Please read each carefully and select the version you believe would be the best fit for your family.
